TAZER MX ALLOY^{PRO}

Inspired by motocross, and built for the motorsports enthusiast. If you're an adrenaline junkie like us, tearing down a hill or jumping a huge boulder with an eBike will definitely get your blood pumping. The pedal-assist Tazer MX Alloy PRO allows you to ride where you want, when you want, and at a pace that works for you.

"This is a bike that allows for a lot of fun and long rides. We have created an authentic ride experience for the off-road enthusiast, and with the adjustable modes you can tailor your ride to go as fast or as long as you want"
Ryan Dungey, 4x SX and 3x MX National Champ, and INTENSE co-owner.

The Tazer MX Alloy PRO now features a new durable and more compatible aluminium frame, further enhancing its MX credentials. Whether you're exploring twisty singletrack forest trails or conquering a steep climb, the added boost of the Tazer MX's electric-assisted riding is there when you want it.

TAZER MX ALLOY^{PRO}

SHIMANO STEPS

Smooth and powerful EP8 motor, featuring the neatest and sleekest display of any electric system. SHIMANO is quality through and through.

JS TUNED ENDURO LINK

Designed with eBike characteristics in mind, offering incredibly smooth performance on mixed terrain, with great pedaling efficiency and suspension performance.

INTEGRATED REMOVABLE BATTERY

Simplicity itself. The design of the Tazer MX means that you can charge the battery either in the bike or take it out to charge elsewhere.

INTEGRATED MUD AND FLAK GUARDS

We use burly integrated Mud and Flak Guards on the Tazer MX to protect the frame and motor from rock strikes and track debris.

INTERNAL CABLE ROUTING

Internal routing for shifter, dropper post, rear brake and display cables. Making the Tazer neat, tidy and noise free.

ESPEC CHAINGUIDE MOUNTS

eBike specific mounts for a chain device or bashguard. The Tazer MX is supplied with a chain device as standard.

ALL-NEW 6061 T6 ALLOY FRAME

The new Tazer Alloy frame takes us back to our roots. Custom hydroformed tubes are designed to be compatible on rough terrain, with durability built-in as standard.

INTENSE

TAZER MX ALLOY PRO - SPECIFICATION

NEW SHIMANO 630WH BATTERY

New larger capacity 630Wh battery means more miles, more riding time and fun.

SHIMANO EP8 MOTOR

SHIMANO EP8 drive unit gives you all the assist you need to make it up the steepest climbs with ease.

ÖHLINS SUSPENSION

'Swedish Gold'. Öhlins 170mm single crown fork and 155mm coil rear shock gives you confidence on the trail.

AGGRESSIVE GEOMETRY

64° head angle achieves an aggressive geometry ready for any terrain.

MIXED WHEEL SIZE

29" front and 27.5+ rear wheels easily roll over all obstacles on the trail. Creating a bike that is capable, fast and fun, giving you stability and trail flattening speed.

WORLD CUP WINNING STOPPING POWER

TRP DH-R EVO hydraulic brakes provide proven, powerful and consistent braking.

TRP DRIVETRAIN

TRP EVO 12-speed drivetrain provides you with all the gears you need to tackle the toughest terrain.

PIRELLI SCORPION TIRES

High performance eBike specific tires from Pirelli.
